

VQ Conference Manager

Unleash Awesome!

The most complete management solution for Cisco Meeting Server
Available to buy through Cisco

VQ Conference Manager unlocks the full power of Cisco Meeting Server, enabling you to deliver secure, high-quality unified communications (UC) services that align with today's hybrid working environments and users' expectations.

Who is using VQ Conference Manager and why?

- ✓ **VQ Conference Manager is a single solution** for deploying voice and video services based on CMS at scale
- ✓ **It's deployed in a number of verticals**, including, Federal/Govt, Defense, Enterprise; Banking, Energy, Legal, Education and Health
- ✓ **Deployments can be large:** e.g., 24 Node (CMS 2000) systems running VQ Conference Manager in a production environment
- ✓ **These call volumes are huge**, e.g., 50,000 to 80,000 calls a day; 6000 participants in call; 70,000 users
- ✓ **VQ Conference Manager sees very high customer renewal rates and capacity upgrades**, with additional CMS nodes being added
- ✓ **VQ's support model is very popular with customers** and gets excellent feedback
